kwashiorkor_gen_h_h37A: residues analysis of LLR-model fit

Model residues plot — Residues (model scale) vs. mean (log scale)

Probability plot of (ordered) residues — Residues (model scale) vs. Quantiles (normal distribution); $R^2 = 0.8991$

Accumulated ESS plot — Accumulated ESS (lin scale) vs. mean (log scale)

Normality plot of the residues — Probability density vs. Residues
